
Judy Zeiss

I became interested in Bobbin Lacemaking in 1968 when our family was first transferred to Belgium but with 4 small children, the desire to learn French as well as cope with driving over there, it wasn't until 1981 when we were again transferred to Belgium that I was able to enroll in classes there through the American Women's Club and later with a Belgian lacemaker in a class taught entirely in French. In 1983 we were transferred to the U.K. and I continued my studies. I even learned to drive on the other side of the road to get to class. Since returning to the U.S. I continue to learn new techniques as well as other bobbin laces when and where ever possible. I have now been teaching 23 years. I teach weekly in my home as well as workshops for GLLGI and IOLI. I am a certified Bobbin Lace Teacher by GLLGI and Past President of GLLGI. I am also past 2nd Vice President of IOLI.
